

The Reed Organ Society

*An International
Organization*

Purposes of the Society

- To bring together through publications, correspondence and meetings, persons interested in free-standing reed organs of the American and Anglo-European traditions, including their historical antecedents and contemporary offshoots;
- To make such reed organs known to the public as historically important and musically viable instruments, through publicity and encouragement of performance;
- To locate and document extant reed organs;
- To preserve materials relating to reed organs and their builders;
- To encourage the restoration and preservation of extant instruments by supplying historical and technical information;
- To reprint reed organ publications, including advertising, catalogs, brochures, and booklets;
- To locate, preserve, publish, and record extant reed organ music; to encourage new compositions and arrangements; and to promote the performance of music written expressly for reed organs;
- To foster education and scholarly research in the reed organ field;
- To create and maintain liaisons with related organizations and institutions to support these purposes.

Who Should Join?

Anyone interested in free reed instruments! Founded in 1981, the Society is an international nonprofit organization devoted to the appreciation, study, collection, restoration, and preservation of reed organs. The scope of instruments ranges from lap organs, melodeons, harmoniums, parlor, chapel, and church organs, to mechanical player organs, whether they be foot-pumped, hand-cranked, or motorized.

Membership Benefits

The *ROS Quarterly*, published four times a year, contains information, articles on reed organ history, news of members' activities, and advertising. Music and performance reviews, resource materials, expert restoration advice, and organ identification requests are featured regularly.

A membership *Directory* lists members' interests and specialties. This directory facilitates correspondence and permits members to meet and examine collections, trade, buy, or sell organs, parts, photographs, recordings, books, music scores, and other memorabilia related to reed organs.

How to Join

Complete the form below and mail it with the appropriate dues payment to the Membership Secretary. You may also visit our website www.reedsoc.org and click on Membership.
